LPWA Module

CATM1 기술과 무라타 모듈 소개

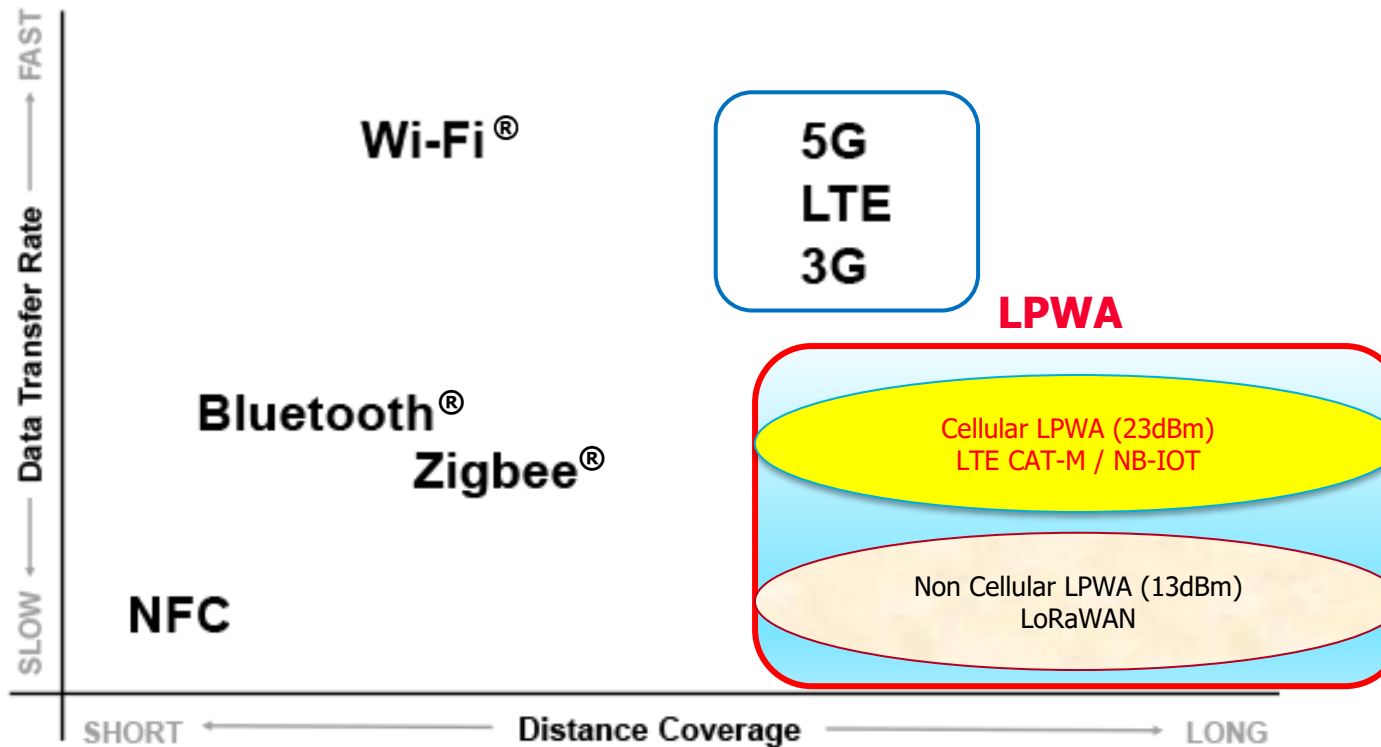

LPWA

Low Power Wide Area

LPWA (Low Power Wide Area) Network Technology

- LPWA is lower power, long range, cost efficient technology
- Cellular LPWA supports higher power (23dBm) and higher data rate than does non-cellular LPWA

LPWA (Low Power Wide Area) Network Technology

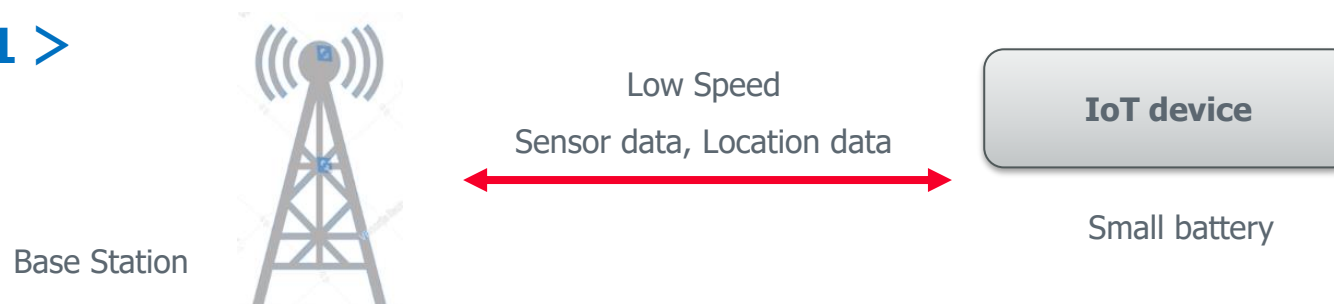

| | LoRa | NB-IoT | Cat.M1 |
|--------------------------|-------------------------------------------------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------|
| Spec |  LoRa Alliance LoRaWAN |  3GPP Release 13 |  3GPP Release 13 |
| Frequency | 비면허 대역 (~920MHz) | 면허 LTE 대역 (~800MHz&1.8GHz) | 면허 LTE 대역 (~800MHz&1.8GHz) |
| Transfer Rate | ☆☆☆☆☆ (~5.4Kbps) | ☆☆☆☆☆ (DL/UL : ~27/63Kbps) | ★★★★★ (DL/UL : 300/375Kbps) |
| Cost | Low | Low | Low |
| Power Consumption | Very Low | Low | Low |
| Mobility | 부분 지원 | 부분 지원 | Full Mobility(Hand over)지원 |

Cat.M1 vs LTE

< LTE >

< Cat.M1 >

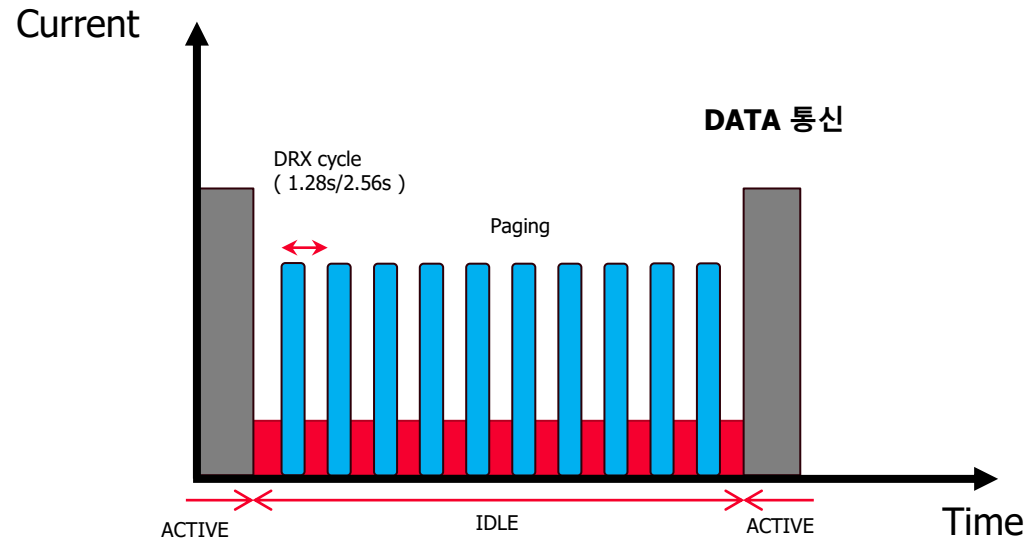

LTE is for high speed data such as voice or streaming movies with high speed and low latency, but **higher current consumption**.

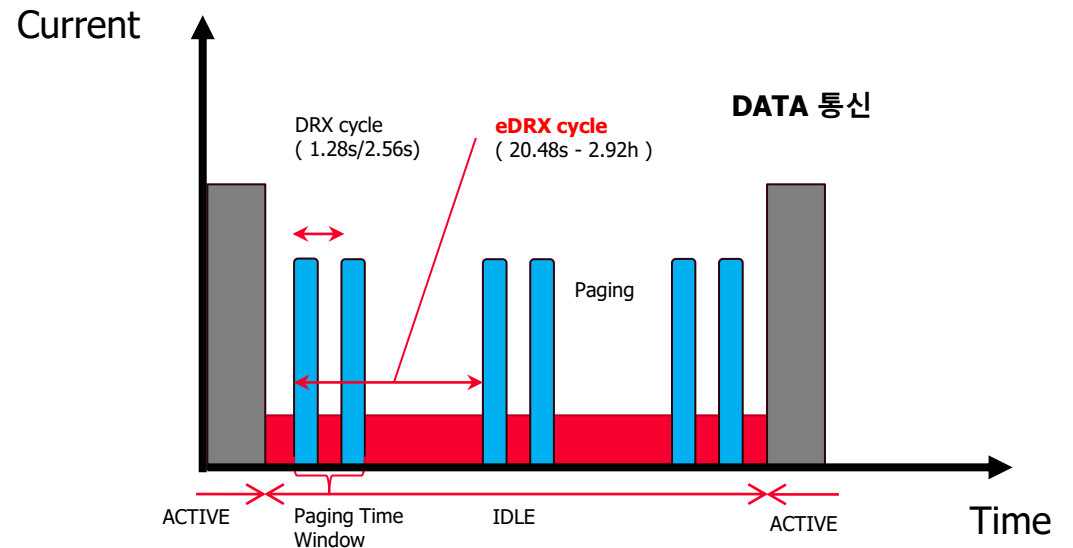

Cat.M1 is for low speed data transfer such as from sensors or location data. Features **lower current consumption** by **eDRX & PSM**.

eDRX and PSM

eDRX | 단말 Sleep(IDLE) 상태에서 Wake Up(Paging) 주기를 늘려,
단말 소비전력 최소화

LTE : DRX
(Discontinuous Reception)

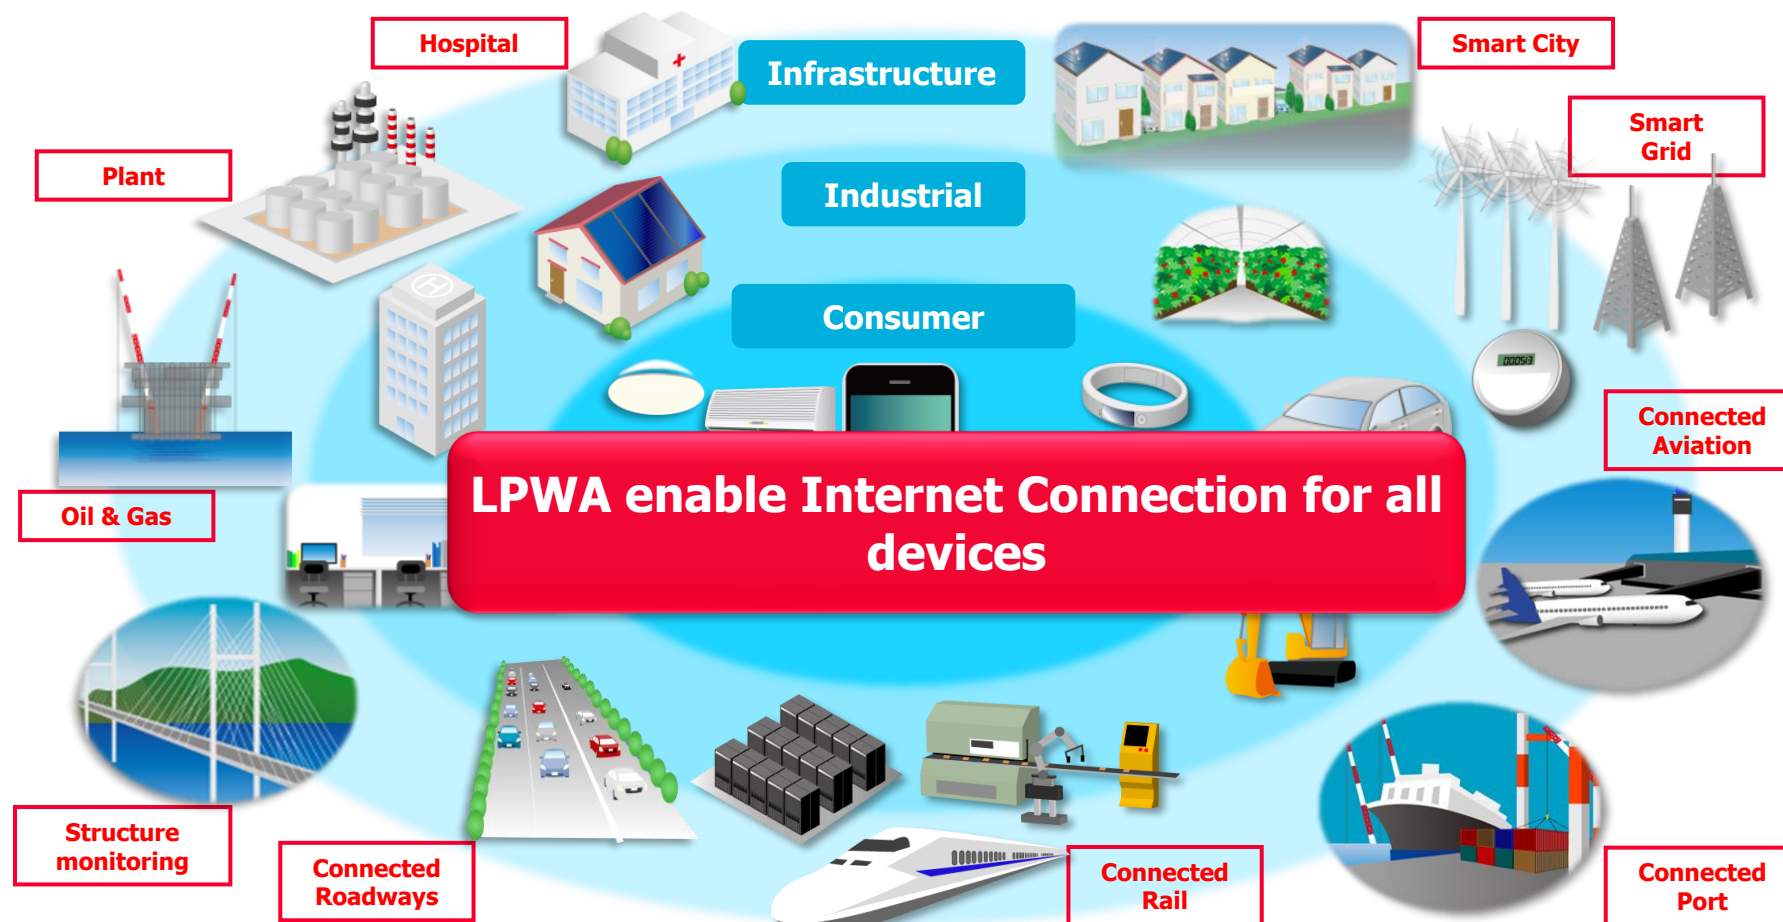

LPWA : eDRX
(extended Discontinuous Reception)

PSM

설정된 **PSM Timer** 동안 **Paging** 동작도 **Skip** 함으로써 단말 소비전력 최소화
(다음 **Wake up** 까지 단말은 **Deep Sleep** 상태로 통신 단절)

The Connected World

All the things will be digitalized and be connected to the Internet.
Move to "Connected World"

Murata LPWA Module

Murata Connectivity Products

Mobile Market

Smartphone/Tablet /Wearable etc.

Unique Smallest Package
High Performance RF

Wi-Fi® Module
Wi-Fi® 6E
UWB

mm Wave Module
-5G (for smartphone/BTS)
-WiGig (for smartphone/Backhaul/VR)

Automotive Market

Automotive Quality
IATF16949
Software / Certification

Bluetooth®/Wi-Fi®/UWB
Module & Software

V2X-11p, C-V2X, GNSS
Software, Onboard Security

LTE module

IOT Market

Antenna Embedded Module
Software Embedded Module
Regulatory Certified Module

Connectivity Software Expert
Cloud - Mobile application
New Software

Bluetooth® Low Energy Wi-Fi® UWB
802.15.4 ISM communications

Asset Tracking

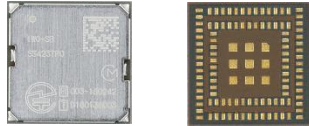

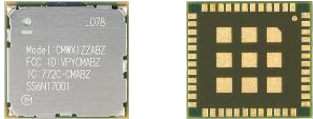

Values of Murata Module

- Top market share in Bluetooth®, Wi-Fi® module market;
More than 50% market share
- Excellent partnerships with global market leaders
- High quality design with our own components
- Small size, high quality, regulatory certified, ready-to-market product with stable supply
- Hardware and RF design support capabilities

Connectivity Module Market Share

(2019CY – mobile devices)

| Cat-M1/NB-IoT module | Cat-M1/NB-IoT module |
|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <p>Type 1SC</p> <p>Part Number: LBAD0XX1SC</p> <p>Altair ALT1250 11.4x11.1mm</p>  | <p>Type 1WG</p> <p>Part Number: LBAD0XX1WG</p> <p>Altair ALT1250 12.2x12.0mm</p>  |
| LoRa module | NB-IoT module |
| <p>Type ABZ</p> <p>Part Number: CMWX1ZZABZ</p> <p>Semtech SX1276 + STMicro STM32L0 12.5x11.6mm</p>  | <p>Type 1YS</p> <p>Part Number: LBAD0YW1YS</p> <p>Mediatek MT2625 13.2x10.6mm</p>  |

- 50% smaller size than the market standard (18x16mm -> 11.4x11.1mm)
- Low power, high quality, strong support

Murata Cat.M1 Module 소개

| Part Number | |
|---------------------------|------------------------------------------------------------------------------------------|
| Part Number | LBAD0XX1SC |
| Product Type | Module |
| Type Mounting | LGA |
| Type Package | Resin Mold |
| Chipset | |
| RF IC | Altair ALT1250 |
| Features | |
| Connectivity | LTE Cat.M1 / NB-IoT |
| Support bands | Low: B5/B8/B12/B13/B14 (Cat M1 only) /B17/B18/B19/B20/B26/B28 Mid: B1/B2/B3/B4/B25 |
| Power class | Cat.M1/NB: 23/20dBm |
| Supply Voltage | 2.2~4.35V |
| Host Interface | UART (AT command via UART) |
| Dimensions L x W x H (mm) | 11.1 x 11.4 x 1.5mm(Max) |
| Operating Temp. (°C) | -40~85°C |
| Certification | |
| Regulatory | FCC/IC/RED/TELEC/KC/NCC GCF/PTCRB |

About LPWA (LPWAN)

LPWA stands for Low-Power Wide Area wireless technology. LPWA wireless technology enables the IoT (Internet of Things) applications, which usually require lower power consumption and longer range coverage. Although the data transfer rates are comparatively slower than existing wireless communication technologies such as WiFi, Bluetooth, mobile network, etc., LPWA technology is predicted to be widely used in the IoT and M2M as it enables lower consumption of connected devices.

Murata and AWS Value Proposition

Confidential

muRata
INNOVATOR IN ELECTRONICS

**Leverage respective companies unique strength to ease and speed up your journey
to connect IoT Devices to the cloud**

muRata
INNOVATOR IN ELECTRONICS

- Module Maker Excellence
- Large and Diversified connectivity module portfolio
- Multi MCU & connectivity radio semiconductor partners
- Large customer base coverage across different application segments

aws

- Cloud Platform Excellence
- Unique set of powerful cloud services
- Dedicated IoT Core Platform (scalability, security, analytics and device management services,..)
- Large customer base coverage across different application segments

**Easy connection to AWS using
Murata "cloud-ready" modules**

Murata & **LPWA** INNOVATOR IN ELECTRONICS

- LPWA technology will be one of the pillars of connectivity technology in IoT.
All the “Things” will become connected to the Internet.
- LPWA devices are starting to be released to the market gradually.
- Small Size and Performance are the key for IoT devices.

In addition, low cost is necessary for its rapid expansion.

LPWA will enable this to occur.

- Murata provides total solutions such as Sensor, Battery, Connectivity System in addition to the connectivity module by working with partners for contributing to the spread of LPWA technology.
