# BLM21SP111SH1#

In Production AEC-Q200 RoHS REACH

< List of part numbers with package codes > BLM21SP111SH1B BLM21SP111SH1D BL

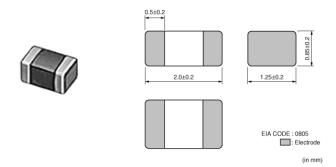

BLM21SP111SH1J

### Applications

| Please be sure to read and comply with     |  |
|--|--|
| these "Precautions for use."               |  |
| Automotive powertrain/safety equipment,    |  |
| Automotive infotainment/comfort            |  |
| equipment,Consumer equipment,              |  |
| Medical equipment [GHTF A/B/C]             |  |
| except for implant & surgery & auto        |  |
| injector,Industrial Equipment              |  |
| Please refer to Our Website and            |  |
| specifications, etc. for information about |  |
| the performance, functions, quality,       |  |
| management, and safety required for        |  |
| the above applications, and use            |  |
| Products after confirming the              |  |
| performance and reliability of the actual  |  |
| Product.                                   |  |
|  |  |
| Automotive powertrain/safety equipment     |  |
|  |  |

### Appearance & Shape

## Packaging Information

| Packaging | Specifications   | Standard<br>Packing<br>Quantity |
|-----------|------------------|---------------------------------|
| В         | Bulk(Bag)        | 1000                            |
| D         | 180mm Paper Tape | 4000                            |
| J         | 330mm Paper Tape | 10000                           |

### Features

The chip ferrite beads BLM series is designed to function nearly as a resistor at noise frequencies, which greatly reduces the possibility of resonance and leaves signal wave forms undistorted.

BLM series is effective in circuits without stable ground lines because BLM series does not need a connection to ground.

The nickel barrier structure of the external electrodes provides excellent solder heat resistance. BLM21SP series can be used in high current circuits due to its low DC resistance.

#### Attention

1. This datasheet is downloaded from the website of Murata Manufacturing Co., Ltd. Therefore, it's specifications are subject to change or our products in it may be discontinued

without advance notice. Please check with our sales representatives or product engineers before ordering.

2. This datasheet has only typical specifications because there is no space for detailed specifications.

Therefore, please review our product specifications or consult the approval sheet for product specifications before ordering

## Specifications

| Shape                              | SMD            |
|------------------------------------|----------------|
| Size Code (in inch)                | 0805           |
| Length                             | 2.0mm          |
| Length Tolerance                   | ±0.2mm         |
| Width                              | 1.25mm         |
| Width Tolerance                    | ±0.2mm         |
| Thickness                          | 0.85mm         |
| Thickness Tolerance                | ±0.2mm         |
| Operating Temperature<br>Range     | -55°C to 125°C |
| Mass(typ.)                         | 0.01g          |
| Number of Circuit                  | 1              |
| Rated Current (at 85°C)            | 5A             |
| Rated Current (at 125°C)           | 3.3A           |
| DC Resistance(max.)                | 0.013Ω         |
| Impedance (at 100MHz)              | 110Ω           |
| Impedance (at 100MHz)<br>Tolerance | ±25%           |
| Size Code (in mm)                  | 2012           |

#### "#"at the end indicates the package specification code.

In operating temperature exceeding +85°C, derating of current is necessary for this series. Please apply the derating curve shown in chart according to the operating temperature.

Derating of Rated Current

Impedance-Frequency Characteristics

Derating of Rated Current

(Resistance element becomes dominant at high frequencies.)

**Equivalent Circuit**
