### "#"at the end indicates the package specification code.

Size Code 2012 (0805) in mm (in inch), 0.55mm max. Thickness

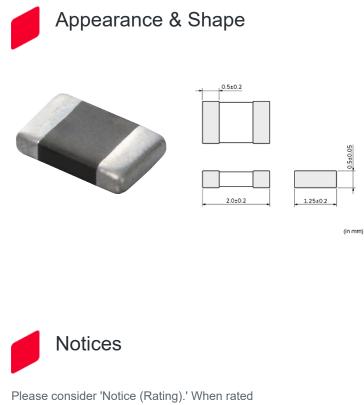

LQM21PN1R0MC0D

< List of part numbers with package codes > LQM21PN1R0MC0B LQM21PN1R0MC0D

## Applications

| Unsuitable   | Please be sure to read and comply with     |  |
|--------------|--|--|
| Applications | these "Precautions for use."               |  |
|              | Consumer equipment,Medical                 |  |
|              | equipment [GHTF A/B/C] except for          |  |
|              | implant & surgery & auto injector,         |  |
|              | Industrial equipment except for            |  |
|              | transportation & facility & energy         |  |
|              | equipment                                  |  |
| Specific     | Please refer to Our Website and            |  |
| Applications | specifications, etc. for information about |  |
|              | the performance, functions, quality,       |  |
|              | management, and safety required for        |  |
|              | the above applications, and use            |  |
|              | Products after confirming the              |  |
|              | performance and reliability of the actual  |  |
|              | Product.                                   |  |
| Recommended  | Canauman anuiamant                         |  |
| Applications | Consumer equipment                         |  |

current is applied to the products, the temperature rise caused by self-generated heat shall be limited to 40°C max.

## Specifications

| L size                             | 2.0±0.2mm                 |
|------------------------------------|---------------------------|
| W size                             | 1.25±0.2mm                |
| T size                             | 0.5±0.05mm                |
| Size code inch (mm)                | 0805 (2012)               |
| Inductance                         | 1µH±20%                   |
| Inductance Test Frequency          | 1MHz                      |
| Rated current (Itemp)              | 0.8A(Ambient temp.85°C)0. |
| (Based on Temperature rise)        | 60A(Ambient temp.125°C)   |
| Max. of DC resistance              | 0.238Ω                    |
| DC resistance                      | 0.19Ω±25%                 |
| Class of magnetic shield           | Shielded (Ferrite Core)   |
| Self resonance frequency<br>(min.) | 90MHz                     |
| Brand                              | Murata                    |
| Operating Temperature<br>Range     | -55°C to 125°C            |
| Series                             | LQM21PN_C0                |
