PKHPS0013E4000-B0

In Production New RoHS REACH

Applications

Unsuitable	Please be sure to read and comply with
Applications	these "Precautions for use."
	Consumer equipment,Industrial
	Equipment
	Please refer to Our Website and
	specifications, etc. for information about
Specific	the performance, functions, quality,
Applications	management, and safety required for
	the above applications, and use
	Products after confirming the
	performance and reliability of the actual
	Product.

Appearance & Shape

Packaging Information

Packaging	Specifications	Standard Packing Quantity
-B0	Bulk	1650

The PKHPS0013E40 series uses frequency control technology to achieve a sound pressure level comparable to that of medium- or large-size sounders in spite of its compact size. This allows customers to select a compact component without having to settle for a lower sound pressure level.

In addition, medium- to large-size sounders must be packaged in bulk, requiring hand soldering when mounting them on a board. The PKHPS0013E40 series, however, is available in taping-reel packaging, allowing for automated mounting and dramatically lowering mounting cost.

Features of the PKHPS0013E40 series

1. Compact size and high sound pressure: Combines clearly audible sound pressure and compact dimensions, reducing the dimensions of the components overall as well as the mounting space needed on the board.

Available in taping-reel packaging: Reduced mounting cost.
Improved product design: Tolerance for high-flow solder.

Specifications

Oscillation circuits	Not built-in
Size	φ12.6×9.4 mm
Frequency	4.0kHz
Sound Pressure Level	83dB (typ.)
Sound Pressure Level	78dB (min.)
Measure Condition of Sound Pressure Level	[±1.5Vo-p,4.0kHz,square wave, 10cm]
Capacitance	6.5nF
Capacitance Tolerance	±30%
Measurement Condition of Capacitance	[1kHz]
Maximum input voltage	±15.0Vo-p max.
Operating Temperature Range	-40°C to 85°C
Storage Temperature Range	-40℃ to 85℃
Shape	Lead
Lead Shape	Pin type
Drive Type	External Drive
Mass	869mg
