# SFZLA455KT2A-B0

Discontinued

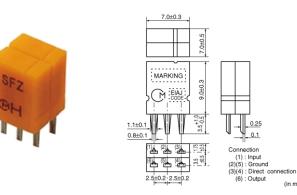

RoHS REACH

### Applications

Unsuitable	Please be sure to read and comply with		
Applications	these "Precautions for use."		
	Consumer equipment		
	Please refer to Our Website and		
Specific	specifications, etc. for information about		
	the performance, functions, quality,		
	management, and safety required for		
Applications	the above applications, and use		
	Products after confirming the		
	performance and reliability of the actual		
	Product.		

### Appearance & Shape

Note: This datasheet may be out of date. Please download the latest datasheet of SFZLA455KT2A-B0 from the official website of Murata Manufacturing Co., Ltd.

## Packaging Information

Packaging	Specifications	Standard Packing Quantity	
-B0	Bulk	200	

SFZLA series for AM use is one of the most recommendable intermediate filters, having such distinctive features as high selectivity, high stability, and adjustment-free operation. Additionally its easy matching with IC helps create an easy circuit design.

### Features

1. Center frequency range between 450 to 470kHz are available standard tolerance of +/-2kHz.

2. For frequency synthesizers, center frequencies of 450, 459 and 468kHz are available standard tolerance of +/-1kHz.

1 of 3

### Attention

1. This datasheet is downloaded from the website of Murata Manufacturing Co., Ltd. Therefore, it's specifications are subject to change or our products in it may be discontinued

(in mm)

without advance notice. Please check with our sales representatives or product engineers before ordering.

2. This datasheet has only typical specifications because there is no space for detailed specifications.

Therefore, please review our product specifications or consult the approval sheet for product specifications before ordering
